

PORT SECURITY GUARD

Security Awareness Training for Personnel with Designated Security Duties Engaged in Port Facility

Introduction

This training follows the IMO Model course 3.24, with the aim to provide participants with a firm understanding of the purpose of the ISPS Code and current maritime security threats and patterns relating to shipping and ports. The training provides awareness on the recent conventions that are applied at port facilities that facilitate international trade. Participants will be embedded with the knowledge of current security threats affecting maritime industry and sense the reality of today's security issues on a global scale and how it can affect trade and commerce. Participant's mindset will be enlightened to see the seriousness of current security threats ranging from piracy, terrorism, contraband, smuggling, collateral damage, cargo theft and etc. which affects shipping and ports all around the globe. This training aims to motivate participants to acquire the required knowledge and skills to perform their functions effectively to enable to the port facility they are engaged with to be ISPS compliant mainly to encourage and facilitate international trade.

Objectives

The aim of the course is to provide a good understanding of the ISPS Code requirements to those who would be implementing security duties at a port facility that operates in accordance with the ISPS code requirements.

Outline

This course content will cover the following areas;

1. Recognition on a non-discriminatory basis of characters and behavioral patterns of persons who are likely to threaten security.
2. Techniques used to circumvent security measures
3. Crowd management control techniques
4. Security related communications
5. Knowledge of emergency procedures and contingency plans.
6. Operation of security equipment and systems.
7. Testing, maintenance and calibration of security equipment and systems.
8. Inspection, control and monitoring techniques.

9. Methods of physical searches on persons, personal effect, baggage, cargo and ships stores.

Course Outcomes

After successfully completing this course, participants should be able contribute to the enhancement of maritime security through heightened awareness; recognition of security threats; and understanding of the need for and methods of maintaining security awareness and vigilance at a port facility facilitating international trade.

Pre-requisite

This course framework requires a little knowledge of maritime industry relating to shipping and ports.
