

SAFETY AWARENESS COURSE FOR SEA TRAVEL

Introduction

This course is specifically designed for non-seafarers who may be required to travel on vessels or boats. The trainee will be given a general oversight of area's concerning sea safety, basic first aid, the basic elements of fire, awareness of navigation aid, emergency radio communication measures, the operation of an outboard motor engine and the safety measures associated with it. The knowledge and understanding enables the trainee to be aware and prepared for emergencies that may arise during the voyage.

Objectives:

This training is tailored for those who need to have a basic understanding of safety awareness when travelling by vessels or boats. The training will prepare them for emergencies which may require them to use lifesaving appliances carried by the boat or correctly respond to emergencies when on board the vessel or boat.

Outline:

This basic safety course is tailored for sea travel in the following areas.

- Basic sea survival
- Basic First Aid
- Basic Fire awareness
- Basic knowledge of the two stroke Outboard motor engine
- Basic understanding of shipboard navigation and communication equipment

Outcome:

After successful completion of the course the trainee will have the basic safety awareness, knowledge and understanding of ships or boats emergency equipment that may be used for survival at sea and what to do if an emergency situation arises when travelling by sea.
