

MATE CLASS 4

INTRODUCTION

This training provides the grounding knowledge not only to perform navigation duties but also to act as managers and leaders to the vessels crew and colleagues as well as interact with external parties linked to the vessels operation. It is vital that they possess the knowledge and ability of managing people, planning and coordinating activities on board, as well as making the right decisions through proper judgment and analysis of the situation. Due to the demanding tasks of ships officers performing critical tasks for the smooth operation of the vessel, this training, integrates Watch keeping theory, practical application and problem solving exercises to enable Students to develop skills and knowledge to carry out watch keeping duties and respond appropriately to emergency and operational requirements of their vessel.

PRE-REQUISITE

The candidate needs to have completed:

- Deck Cadet Officer training and has the appropriate sea time approved by NMSA
- Mate or Master class 5 and has met the required sea time and capacity according to NMSA

THE OBJECTIVE OF THE COURSE
